Islamabad, September 01 (QNA) – An army helicopter crashed killing all crew members in Pakistan on Monday.

A statement from the Pakistani military said the MI-17 helicopter was on a routine training flying when it developed a technical fault and crashed.

The incident resulted in the deaths of two pilots, two crew chiefs, and a flight engineer.

This accident comes just weeks after a similar crash in the Khyber Pakhtunkhwa province in northwest Pakistan while participating in rescue operations during severe flooding, killing all five people on board at the time.
