Gaza, October 18 (QNA)– Six Palestinians were killed and others were injured in new shelling by the Israeli occupation army Friday on different areas of the Gaza Strip.

Palestine Red Crescent paramedics said in statements that four civilians were killed and others

were injured in a drone strike on a group of citizens near the “Hamid” intersection on Al-Nasr Street in the “Al-Nasr” neighborhood northwest of Gaza City. They were transferred to Al-Shifa Medical Complex.

Two others were killed and others were injured in an Israeli strike that targeted a group of citizens near Al Awda Hospital, while local sources reported that Israeli bulldozers demolished a house in the “Al-Faluja” area in the “Jabalia” camp over the heads of displaced people, without knowing the fate of those inside.

In addition, Israeli drones bombed the vicinity of the “Kamal Adwan” Martyr Hospital in the town of Beit Lahia, north of the Strip, without knowing the number of victims.

For the 14th day, the Israeli occupation has besieged 200,000 citizens, without food, drink or medicine in northern Gaza, under continuous bloody bombing and the demolition of homes over the heads of their residents, and targeting schools that shelter displaced people, as part of the ongoing war of genocide on the Strip.
