Gaza, November 04 (QNA) – The Israeli occupation forces (IOF) murdered at least 43,374

Palestinian civilians and injured at least 102,261 others since the beginning of the genocide that the Israeli occupation has been committing against the Gaza Strip in October 2023.

Medical sources in the Gaza Strip said that thousands of victims remain under the rubble and scattered on the streets, as the IOF has been preventing ambulance and civil defense crews from

reaching them.

The IOF committed three massacres against Palestinian families in the Gaza Strip over the past 24 hours, slaughtering 33 Palestinian civilians and injuring 156 others, the sources added.

The Israeli occupation has been committing a textbook genocide in the Gaza Strip for 395 days, amid an indescribably massive man-made destruction and famine and deafening international silence.
