Moscow, November 05 (QNA)– The Russian air defenses destroyed six Ukrainian drones over the Bryansk Region overnight, the Russian Defense Ministry said.

“Kyiv attempted to carry out an attack with fixed-wing drones on sites on the territory of the Russian Federation overnight, which was foiled. Six Ukrainian unmanned aerial vehicles were destroyed over the territory of the Bryansk Region by on-duty air defense capabilities,” the

ministry said in a statement.

Russia launched a “special military operation” in Ukraine on February 24, 2022.
