Gaza, November 06 (QNA) – Several Palestinians were martyred Wednesday as a result of the continued Israeli raids and shelling of northern Gaza Strip.

A source at Al Awda Hospital in the northern Gaza Strip said that 5 citizens were martyred as a result of the occupation's shelling of a group of citizens in the Tal al Zaatar area. For its part, the Palestinian Civil Defense confirmed that its work has been forcibly suspended for the 15th day in all areas of northern Gaza Strip due to the ongoing Israeli aggression, noting that thousands of citizens there are without humanitarian and medical care.
