Gaza, December 25 (QNA) – Several Palestinians were killed and others were injured Wednesday, as a result of the Israeli occupation forces' bombing of various areas in the Gaza Strip.

Palestine News and Information Agency (WAFA) said that two citizens were killed and several others were injured when Israeli drones targeted a group of citizens in the Abu Khater neighborhood, near the Islamic University, southeast of Khan Yunis.

Two citizens were also killed as a result of targeting a group of citizens in Jabalia Al Nazla, north of the Gaza Strip, and another citizen was killed and others were injured when the occupation forces' aircraft targeted a group of citizens near the General Security Junction, northwest of Gaza City.

Meanwhile, two citizens were killed and several others were injured in an Israeli aircraft bombing that targeted a group of citizens east of Al Bureij camp in the central Gaza Strip.

The Israeli occupation continues its aggression on the Gaza Strip, by land, sea, and air, since Oct. 7, 2023, which resulted in the killing of 45,338 citizens, the majority of whom were women and children, and the injury of 107,764 others, in an incomplete toll, as thousands of victims are still under the rubble and on the roads as ambulance and rescue crews cannot reach them.
