CNN – Wind-driven wildfires are sweeping through the greater Los Angeles area, forcing tens of thousands of residents to evacuate. At least five major fires have destroyed thousands of structures and caused “significant injuries.” Officials report 10 fatalities, cautioning that the toll may rise once affected areas are fully accessible.

Emergency crews are working tirelessly to contain the flames, while evacuees seek refuge in shelters, hoping their homes remain intact. Aid organizations are providing essential support to

those in need.
