Ankara, May 30 (QNA) – The Turkish economy grew by 2 percent year-on-year in the first quarter of 2025, according to a recent report by the Turkish Statistical Institute.

The report, which covers the gross domestic product (GDP) for the period from January to March of this year, indicated that the growth rate increased by 2 percent compared to the same period last year.

This growth is an indicator of the continued recovery of the Turkish economy despite domestic and

globaleconomicchallenges.
