MIRPUR (AJK): June 19: Veteran Kashmiri analyst and ex-Media Adviser to PM AJK,

Hameed Shaheen Alvi said on Thursday that the entire Middle East has by now become a wars-addictive region because of the continued Israeli militaristic arrogance.

“Only a marked global wisdom can reverse this ghastly scenario, he said in his X message to the Secretary General of the United Nations Organization, Mr Antonio Guterres on Thursday. Mr Alvi’s message reads as follows:-

“Excellency, SG UN: Saner humans all across world love your global peace initiatives. However Mideast has become quite wars addictive, hellishly notorious peace poacher. Your strategic wisdom can help halt running Israel-Iran warring contest to debut precious peace in the [region.@antonioguterres](#)“.
