HUAWEI today announced the availability of its latest flagship tablet, the HUAWEI MatePad Pro 12.2", in Qatar Featuring a stunning Tandem OLED PaperMatte Display, powerful productivity features and innovative digital art tools, this latest offering from Huawei is designed to cater to both productivity and creativity. As a flagship tablet that marries high-level productivity-boosting features with pro-level creative capabilities, the MatePad Pro 12.2 is set to become a

must-have device for users seeking a seamless blend of style and substance.

The HUAWEI MatePad Pro 12.2” is now available for purchase through HUAWEI Experience Stores in Doha Festival City, Place Vendôme, and Al Nasr Street, as well as at Lulu Hypermarket, Jarir Bookstore, and Carrefour Qatar, with price 2,999 QAR along with free gifts worth 528 QAR including HUAWEI M-Pencil (3rd Gen) & HUAWEI Mouse.

HUAWEI MatePad Pro 12.2” features a groundbreaking Tandem OLED display architecture bolstered by PaperMatte Display and nano-level pixel stacking and anti-glare nano-level etching technologies. This allows for a peak brightness of 2,000 nits with HDR support and a contrast ratio of 2,000,000:1, resulting in razor-sharp visuals and comfortable, immersive viewing at all times. It delivers an extraordinary viewing experience that remains sharp and clear, even under the brightest sunlight.

The tablet also comes with the HUAWEI Glide Keyboard, which offers a unique 2-in-1 stylus & keyboard design and Studio mode, for laptop-level efficiency. This redesigned keyboard case integrates stylus storage and charging. By simply placing the HUAWEI M-Pencil into the slot, the stylus pairs and charges automatically. The keyboard itself boasts stain-proof materials, making it durable enough to withstand common spills and smudges. The Glide Keyboard also makes it easier to switch between different modes. It’s now as easy as flipping open a laptop and doesn’t require

multiple steps.

The tablet's HUAWEI M-Pencil (3rd generation) stylus makes it easier than ever to write and sketch on screen, with 16,384 pressure sensing levels, seamless NearLink connectivity, and virtually lag-free performance. HUAWEI MatePad Pro 12.2" comes with productivity-boosting features, like Live-Multitask and PC-level WPS Office, making it ideal for professionals working on the go.

There's also the GoPaint app for creatively-minded users, which comes with features like the 3D oil painting brush and animations, all of which are easy to use for creative professionals and aspiring amateurs. The new 3D Oil Painting Brush is an innovative tool that replicates the rich layering of oils, watercolours, and acrylics on paper by allowing users to make adjustments to highlight, shadow, secondary colour, pigment fall off, and pigment wetness. The Animation feature transforms layers into sequential frames, aligning them seamlessly with the animation's flow. Once your painting is complete, simply play it to watch it come alive, layer by layer, frame by frame.

MatePad Pro 12.2" make digital handwriting smoother than ever, working flawlessly with Huawei Notes, users can enjoy a seamless paperless office experience. The HUAWEI Notes app provides AI Handwriting Enhance, Resource Center, and a wealth of brushes. The Resource Center offers a

stunning array of note covers, papers, and stickers, so you can customise your notes to your own style, making them more functional and adding a personal touch.

HUAWEI MatePad Pro 12.2" is a tablet for tomorrow, with revolutionary features for productive professionals and designed to unlock every user's creative potential. The new tablet is now available in Qatar offering consumers a tablet that combines performance, design, and creativity.
