- Lincoln's flagship SUV transforms into a personal luxury sanctuary, seamlessly blending cutting-edge technology with unparalleled comfort to create bespoke family adventures

Doha-Qatar, 2 February 2026 – The weather has cooled and the season of the personalized starlit cinema is in full swing. With bespoke experiences reigning supreme, the desire to transform everyday outings into extraordinary, cherished moments has never been stronger.

Enter the all-new Lincoln Navigator, a vehicle designed not merely for the journey, but as a destination in itself. Far from the bustling crowds and bright city lights, the Navigator becomes your personal retreat, perfectly equipped for everything from a captivating family movie night under the stars to a tranquil stargazing escape, enriching travel, and turning routine outings into precious memories.

The Effortless Journey to Your Personal Oasis

Adventure begins before you settle into the Navigator's meticulously reimaged interior, with the signature Lincoln Embrace lighting and animation sequence greeting. The formidable 3.5L Twin Turbocharged V6 engine, delivering a commanding 440 horsepower and 691 Nm of torque, coupled with the standard Adaptive Suspension, ensures an effortlessly smooth and refined ride to even the most secluded of stargazing spots. And the moment you arrive at your destination, Lincoln Embrace bids a fond farewell akin to the dimming lights of a cozy cinema, with headlamps and taillamps fading from the center creating a dynamic and elegant visual effect. Additionally with automatic power running boards gracefully extending when the door opens, the stage is set

for an evening of cathartic escapism.

Unparalleled Comfort, Infinite Relaxation

Or simply stay seated, sinking into the stationary lap of luxury with the Navigator's Perfect Position Seats. Whether the 24-way and 22-way adjustable seats in the Reserve or the exquisite 30-way and 28-way seats in the Presidential, each offers a personalized front row sanctuary with heating, ventilation, and massage functions, allowing driver and front-seat passenger to recline in absolute comfort as they gaze at constellations.

Above, the Panoramic Vista Roof opens up the cabin to the vastness of the night, while Lincoln Rejuvenate orchestrates a spa-like ambiance with calming visuals on the displays, massage, soothing sounds or guided meditations, and delicate Digital Scents like Mystic Forest or Ozonic Azure. Tri-Zone Climate Control and Auto Air Refresh promise a perfectly serene cabin environment, making every moment of the adventure an escape from the everyday.

An Immersive Experience, Curated by Lincoln

The Navigator's sophisticated technology, too, is a star in its own right, where the Lincoln Digital Experience comes to life through a stunning 48-inch panoramic display and an intuitive 11.1-inch center-stack touchscreen, providing seamless control over the environment. While safely

parked, leverage Google apps and Services like YouTube and Prime Video through Pano Mode, effortlessly casting your favorite films to the display screen. Additionally, projection can be changed to either the left or the right side of the panoramic screen with a simple touch.

For an auditory experience that rivals any premium theater, the Revel® Ultima 3D Audio System, featuring 28 precisely placed speakers, delivers rich, multidimensional sound that perfectly complements the visual spectacle. And with up to 14 USB ports and a wireless charging pad, all complementary audio-visual devices remain powered throughout even the longest double-feature meteor shower.

Setting the Scene: Cinema Under the Stars

If it's stars of the silver screen that have instigated the search for seclusion, however, the Navigator truly shines when it's time to curating an outdoor haven, where its class-exclusive Lincoln Split Gate proves invaluable, with the top three-quarters rising like a traditional liftgate, while the bottom quarter lowers like that of a traditional tailgate. This innovative feature not only simplifies loading and unloading, but offers a convenient, robust platform for a 4K-producing projector and an unparalleled perch for a unique elevated viewing experience to the unfurled screen set against the canvas of the night sky.

And with ample cargo volume—up to 1,377 liters behind the second row—allowing for plush blankets, gourmet snacks, and all the tech needed for your private screening, packing for a cinematic escapade is a breeze.

The all-new Lincoln Navigator is more than just a luxurious SUV; it's a canvas for creating cherished family memories and unique personal retreats. Its bold design and reimagined interior, paired with intelligent technology and unmatched comfort, ensure that every journey, and every stationary adventure, is an effortless and unforgettable experience—a true sanctuary on wheels that proves equally perfect for private drive-in cinemas and stargazing rendezvous.
