Doha, March 3 (QNA) – The Ministry of Interior (MOI) on Tuesday warned against gathering at accident sites or filming and circulating footage related to ongoing field developments, cautioning that such actions may result in legal accountability.

In a statement posted on its official account on the social media platform X, the Ministry stressed that these actions obstruct the work of the competent authorities, delay emergency response

efforts, and pose risks to public safety.

Earlier in the day, the Ministry affirmed that the competent security agencies continue to manage the situation with high efficiency and professionalism, ensuring the highest levels of preparedness and response in accordance with approved emergency plans.
