Doha, March 04 (QNA) – Qatar’s Ministry of Interior (MOI) urged the public to strictly adhere to official instructions, remain in safe places, stay away from windows and exposed areas, and not to go out except in cases of absolute necessity.

This came in a post on MOI’s official account on X.

Earlier on Wednesday, the Ministry had warned against approaching any unknown objects or

debris and urged immediate reporting via 999. It added that following instructions enhances public safety and supports the rapid response of the relevant authorities.
