In addition to the previous attack on Ras Laffan Industrial City on Wednesday 18 March 2026 that resulted in extensive damage to the Pearl GTL (Gas-to-Liquids) facility, QatarEnergy confirms that in the early hours of Thursday 19 March 2026, several of its Liquefied Natural Gas (LNG) facilities were the subject of missile attacks, causing sizeable fires and extensive further damage. Emergency response teams were deployed immediately to contain the resulting damage with no

reported casualties.

QatarEnergy will continue to communicate the latest available information.
