Jeddah, April 23 (QNA)– HH Crown Prince and Prime Minister of Saudi Arabia, Prince Mohammed bin Salman bin Abdulaziz Al-Saud, discussed during a phone call with Japanese Prime Minister Sanae Takaichi the latest developments in the region and their security and economic implications at both the regional and international levels.

During the call, efforts to de-escalate tensions and enhance security and stability in the region were also discussed, along with ongoing efforts to ensure maritime security and their economic implications and impact on vital global supplies.

The two sides reviewed bilateral relations between the two countries, existing areas of cooperation, and ways to strengthen and develop them across a number of fields.
