Gaza, July 22 (QNA) – Despite the ceasefire that went into effect in Gaza on October 11, Israeli breaches of the agreement have continued, with the death toll in the Gaza Strip rising to 73,305, mostly women and children, since the beginning of the Israeli aggression in October 2023. At least 173,918 others have also been injured.

This toll remains incomplete, as many victims remain trapped under rubble, inaccessible to

ambulance and rescue crews.

Medical sources said that during the past 24 hours, 12 bodies, including a citizen who succumbed to wounds sustained earlier, and 12 injured individuals were brought to hospitals in Gaza.

Since the ceasefire went into effect on October 11, the number of those killed and injured has reached 1,180 and 3,810, respectively. At least 802 bodies have also been recovered from under the rubble.
