Gaza, June 27 (QNA)– Several Palestinian civilians were killed, and others sustained various injuries, in Israeli occupation bombing east of Gaza City and Bureij camp in the central Gaza Strip on Thursday.

Palestine's news agency (WAFA) quoted medical sources as saying that five people were killed, and others were injured, when the occupation warplanes bombed a house in Shujaiya neighborhood, in northern Gaza.

The same sources added that a number of civilians were killed in the occupation's artillery shelling east of Bureij refugee camp in the central Gaza Strip.

The Israeli occupation aggression against the Gaza Strip, by land, sea and air, since October 7, 2023, has so far resulted in the killing of more than 37,718 citizens, the majority of whom are women and children, while 86,377 others were injured, in an infinite toll, as thousands of victims remain under the rubble.
