Beirut, July 21 (QNA)– A person was killed in an Israeli entity airstrike on southern Lebanon on Sunday.

Field sources in Beirut reported that the Israeli drone targeted the town of Houla with two missiles, resulting in at least one fatality according to initial information.

Additionally, the Lebanese National News Agency reported that the toll from the Israeli strike on the town of Adloun yesterday has reached six civilian injuries, with their conditions described as moderate.

The Israeli escalation continues against towns and villages in southern Lebanon, coinciding with its ongoing aggression against the Gaza Strip since October 7. This aggression has resulted in

numerous civilian casualties and injuries, and has forced hundreds of families to flee their homes.
