Gaza, July 24 (QNA) – Five Palestinians were martyred at dawn on Wednesday, and others were injured, after the Israeli occupation aircraft bombed a house in Al-Jarn area in the northern Gaza Strip.

Medical sources said that five people were martyred and others were injured as a result of the bombing of a house in Al-Jarn area in Jabalia.

The occupation helicopters targeted Tal al-Hawa neighborhood, southwest of Gaza City, amid intense overflights over the area.

In the center of the Gaza Strip, the occupation warplanes targeted Al-Bureij camp, while the Israeli military vehicles opened fire on the north of the camp, the Gaza Valley area and the

northeast of Nuseirat camp.

Additionally, the occupation forces launched “Quadcopter” drones in various areas of the Nuseirat camp.

In the city of Khan Yunis, the occupation army blew up residential buildings in the town of Al-Qarara, northeast of the city, and its vehicles opened heavy fire towards homes in the town of Bani Suhaila, amid artillery shelling, in addition to a raid that targeted a house in Al-Satar area. The eastern region of Hamad Town was also subjected to missile strikes by the occupation warplanes.

United Nations spokesman Stephane Dujarric said that 150,000 people were displaced from Khan Yunis during Monday alone, after the occupation army issued orders to civilians in the eastern neighborhoods of the city to “immediately evacuate” and head towards the “humanitarian zone” created in Al-Mawasi, west of the city.

In Rafah, occupation aircraft launched a raid on the northern area of the city.

Local health authorities confirmed that the Palestinian death toll from the Israeli onslaught since October 7 has risen to 39,090 reported fatalities, with an additional 90,147 individuals sustaining injuries. The majority of the victims are women and children.

Ambulance and rescue teams are still unable to reach many casualties and dead bodies trapped under the rubble or scattered on roads across the war-torn enclave, as Israeli occupation forces continue to obstruct the movement of ambulance and civil defense crews.
