US-Based JKLF (Y) Acting Chairman calls for Peaceful Resolution to Kashmir Issue:

MIRPUR (AJK): July 26: US-based Acting Chairman of Jammu and Kashmir Liberation Front JKLF (Yasin Malik faction) and Director of the Board of South Asia Democracy Watch USA Raja Muzaffar while weighing the recent US travel advisory on Kashmir has called for taking a constructive approach to resolving the long-standing issue.

“The Indian government’s reaction to the US travel advisory on Kashmir is unjustified and misguided,” Muzaffar said in a statement reaching from Dallas Texas and released to the media here on Friday.

“Instead of debating the issue negatively in the media, India and Pakistan should take this advisory as a reminder that Kashmir remains a contentious issue that requires a peaceful resolution”, the JKLF (Y) leader suggested both the neighbouring nuclear powers, the message said.

Muzaffar emphasized that the aspirations and wishes of the Kashmiri people must be taken into account, and their desire for independence from both countries should be acknowledged. “The US advisory is a wake-up call for both nations to engage in meaningful dialogue and work towards a solution that prioritizes the well-being and unrestricted self-determination of the Kashmiri people,” he observed.

“The JKLF (Yasin Malik) acting President’s comments come at a time when tensions between India and Pakistan have escalated over the Kashmir issue. Muzaffar’s organization, South Asia Democracy Watch USA, and JKLF (Yasin Malik) has been advocating for a peaceful and democratic solution to the conflict”, said the message.

“Let’s focus on finding a peaceful solution rather than reacting defensively,” Muzaffar urged. “It’s time for the world super powers to put due interests of the Kashmiri people, the premier stake holders first and work towards a resolution that respects their rights and dignity”, the message concluded.
