Gaza, August 01 (QNA)– The Israeli occupation forces (IOF) murdered more than 39,480

Palestinian civilians and injured more than 91,128 others (mostly children), since the beginning of the Israeli occupation's genocide against the Gaza Strip in October 2023.

Medical sources in the Gaza Strip stated today that the IOF committed two massacres against

Palestinian families in Gaza, in the past 24 hours, slaughtering 35 civilians and injuring at least 55 others.

The sources indicated that thousands of victims remain under the rubble of the demolished

buildings and the ruins of the destroyed city, pointing out that civil defense crews are unable to

reach the victims because the Israeli army is targeting all movements in all areas across the Gaza

Strip
